

ABDULLAH NASEEMUDEEN

MOBILE & WEB DEVELOPER

11/6 Robert Road Dehiwala | abdullaahnaseemudeen@gmail.com | 0760580248

SUMMARY

Enthusiastic developer and University of Westminster ICT student specializing in HTML5, CSS3, and JavaScript. Focused on building responsive, user-friendly websites with a strong eye for detail and creative problem-solving. Proven track record in client-side programming and high-fidelity UI/UX prototyping.

SKILLS

- Languages: Python, Java, JavaScript (ES6+), HTML5, CSS3.
- Frameworks/Tools: React, React Native, Bootstrap, Tailwind.
- DevOps & Tools: GitHub (CI/CD), Git, Vercel/Netlify Deployment, Firebase.
- Soft Skills: Team Leadership, Project Management, Digital Marketing.
- Linguistics: English (Native), Tamil (Advanced), Sinhala (Basic).

EDUCATION

Bachelors degree in Computer Science

2024-Present

Informatics Institute of Technology (IIT)

- Currently studying Computer Science with modules in UI/UX Design, Object-Oriented Programming in Java, and Web Development.
- Developing skills in creating user-friendly, interactive web applications using React.js and Node.js, while building a strong foundation in essential programming concepts.

Advanced Level Examination

2022-2023

Zahira College -Maradana

Ordinary Level Examination

2020-2022

Zahira College -Maradana

Primary & Secondary Education

2011-2020

Zahira College -Maradana

EXPERINCE

Manager, Trimmers Lounge

Jan 2025 -Jan -2026

- Managed daily operations and made sure the workplace ran smoothly.
- Organised staff rotas, supported the team, and handled any issues.
- Managed customer appointments and kept the booking system up to date.
- Handled basic accounts, cashing up, and recording daily income.
- Purchased supplies and managed stock levels.

PROJECTS

Responsive Portfolio Website

2024

- Built a responsive portfolio website using HTML5, CSS3, and JavaScript.
- Designed a clean, user-friendly interface with smooth navigation and modern UI elements.
- Optimized the layout to ensure full compatibility across desktop

Student Management System

2024

- Developed a Java-based system to manage student activities and results across three semester modules.
- Implemented efficient data input, storage, and retrieval features using object-oriented programming principles.

HCI & UX Prototype: WellBeam

2025

- Designed a high-fidelity mobile prototype in [Figma/React Native] that allows users to book doctor appointments (E-Channelling), pay securely, and track fitness data in one app.
- Conducted full-cycle UX research by creating user personas for urban and rural Sri Lankans and testing the app with real users to improve the booking and BMI tracking features.
- Built a clear app structure using sitemaps and wireflows to help users easily find health articles, personalized diet plans, and medical information.

Pet Wallet Feature Developer(SDGP)

2026

- Developed a comprehensive Pet Wallet feature in React Native, allowing users to securely track and manage pet medical records, including vaccinations, prescriptions, and vet visits.
- Implemented secure data access using Firebase Anonymous Authentication and Firestore, architecting private subcollections to ensure users can only view and edit their own pet's entries.
- Engineered complex UI interactions and CRUD operations, ensuring smooth state management and resolving critical data synchronization bugs for a seamless user experience.

Backend Developer | Smart Campus REST API (Java/JAX-RS)

2026

- Built a high-performance REST API using Java (JAX-RS) to manage a "Smart Campus" network of thousands of rooms and IoT sensors.
- Developed full CRUD functionality (Create, Read, Update, Delete) to allow real-time monitoring of CO2 levels, room occupancy, and smart lighting.
- Designed a scalable architecture capable of handling diverse data types from various devices while following professional RESTful standards.
- Managed the complete project on GitHub, providing clear technical documentation and a video demo of the system in action.
